

A Single Family Luxurious Residence, Alabama

This single-family luxury Residence is a blend of Spanish Architecture with modern characteristics. Our architects have designed this house on a large piece of land that has natural sloped terrain. The house boasts a grand entry with a water feature in the center. The entry front porch has a beautiful outdoor chimney with a water feature to please the eyes and give comfort. The elevations give a feeling of a bulky structure with its corbelled columns and stuccoed brick walls. The rear view consists of a beautiful pool cabana beside the pool. The interior of the house is spacious and reflects contemporary style. This house is a perfect amalgamation of modern and classical style architecture.

We support LGBTQ + Community

We understand that inclusion and diversity are used synonymously but are very different from each other. At ISP, we strongly believe in being inclusive and having everyone at the same table. And thus, we value our workforce's views and their choices. To empower the same, we arranged awareness sessions on the LGBTQ + rights movement and POSH Training. The sessions were so inspiring that created an environment of openness and belonging among employees. It's important to celebrate Pride - not just to create a space to grow but also to create a workplace for all to feel connected as well as safe.

Fun with Focus ('International Yoga Day' & 'Music Day' Celebration)

On June 21, we celebrated both - music and yoga with Yog Garba. See the video of how we enjoyed World Yoga Day and World Music Day. From each location (Surat, Ahmedabad & Nashik), our employees joined and had Yog Garba. Yog Garba is a combination of two Indian cultural activities for health benefits. Yog Garba has various benefits. It increases energy, improves body balance & flexibility, strengthens muscles and helps in weight loss. Let us know if you want to learn Yog Garba, we'll arrange a virtual session!

Mango Harvesting in India

Mango is the leading fruit crop of India and is considered to be the king of fruits. India is the number one mango-producing country in the world. Each year, the average mango production reaches over 18 million tons, which is approximately 50% of the global mango supply. The principal mango-producing states in India are Andhra Pradesh, Bihar, Gujarat, Karnataka, Maharashtra, and Orissa, although many other Indian states also cultivate mangoes. In total, India has about 2,309,000 acres of land dedicated to mango farming.
