

A Blissful & Oceanfront Residence Designed In Eco-Friendly Way - Mexico

This noteworthy weekend residence lies in the seashore of Mexico. Our 22-year-old client's goal was to design this residence in an eco-friendly way with a blend of mesmerizing ocean views that can be enjoyed from the private roof terrace. Thus, flat solar panels on the center roof, a water collection system and greywater recycling have been laid by our architects here. The 24" long rolling doors would have large murals painted on them. The residence comprises basic functional plans, a shared outdoor kitchen and pool areas. The property itself would be the pure white stucco and a small outdoor shower off the bedroom. Allowing one to enjoy beautiful sunrises & sunsets from here.

We Never Miss A Chance To Dance

One evening, a long message popped up in the group chat by one of our clients. Guess what was about that. We were all surprised and proud when he was appreciating our team for the tremendous performance in his Survey CADD projects. Congratulations to the team that is led by Rajni and Abhinav. Keep up the best work. We're proud of you all!

ISP Annual Meet

Okay. So here comes the most important part. At the end of 2021, we had a grand party (ISP Annual Meet 2021) and it was unforgettable. We played, sang, ate, rocked and danced a lot. In this party, our CEO - Mitesh Smart also made some important announcements. It can't be expressed in words. We all enjoyed and ended the year with new goals for 2022.

Maha Shivratri

(A Night having a natural upsurge of energy within the human system)

'Mahashivratri' is one of the largest and most sacred festivals of India. Every year, its celebration takes place in Coimbatore. It's a night of immense spiritual possibilities for any spiritual seeker. The celebration is organized by - Sadhguru the founder of Isha Foundation (a spiritual organization). Guided meditations, nightlong musical concerts with world-famous artists, fire dance, and a spectacular light & sound show of Adiyogi are part of the festivities. The unique planetary positions on Mahashivratri are such that there is a natural upsurge of energy within the human system. To allow this natural upsurge of energies to find their way, one of the fundamentals of this nightlong festival is to ensure that you remain awake with your spine vertical throughout the night.
