

An idyllic & luxurious weekend home in Pennsylvania (Designed in Revit & Lumion)

Our team of Architects helped our client in Architectural design, CD sets, and renderings using software such as Revit and Lumion. The team incorporated input from AutoCAD and PDF drawings to create a beautiful and functional farmhouse that blends seamlessly into the surrounding landscape. Although the standing seam metal roof was detailed with precision, the team had to put in extra effort to ensure that the rafters, walls, and chimney were modeled with perfection. Despite these challenges, the result is a stunning residential farmhouse that offers the perfect getaway for a blissful weekend.

Rolling out the red carpet: A warm welcome for our esteemed clients - Allison & Chloe from B2 Architecture + Design

We recently had the pleasure of hosting some of our valued clients Allison Brooks, AIA (Founder & Owner), and Chloe Guernsey, NCARB (Co Studio Director) from B2 Architecture + Design with offices in Dallas and Chicago, USA during their visit to India. The visit was an opportunity to strengthen the collaboration with their team. We also got a chance to show them the rich culture and heritage of India. At ISP, they were welcomed in a truly authentic Indian fashion, ensuring that their stay was as comfortable and enjoyable as possible. The first day of the visit was dedicated to giving them an overview of our company and meeting different team members. We took them on a tour of our offices and showed them our state-of-the-art training institute and work processes. They were impressed with the quality of our work and the dedication of our team. As part of their visit, we also took them to some great local foodie spots for a range of delicious Indian cuisines - which they absolutely loved. Overall, their visit to India was a great success, and we were thrilled to have been able to provide them with an unforgettable experience of India's culture, hospitality, and cuisine. We look forward to welcoming many more clients to our India office and meeting their respective A/E team's ISP. If you are interested in a similar tour as our customer, just reach out to Niyati at niyati@ispusa.net

We honored Women's Day with fancy celebrations

ISP is committed to building a bias-free world. The theme of Women's Day 2023, "Embrace the Equity," was a powerful reminder of the need for gender equality and inclusion in all spheres of life, including the workplace. It sent a message that everyone, regardless of gender, deserves equal opportunities and respect in the workplace.

We at ISP, marked Women's Day in a very fancy way. The activities organized for the week, such as the 5 km marathon, a special lunch prepared by male colleagues and a dinner party were a great way to show appreciation and solidarity with women. By taking these steps towards building a more equitable and inclusive workplace, ISP is not only creating a better environment for its employees, but also setting an example for other organizations to follow.

Reclaiming joy: Widows in Vrindavan celebrated Holi with fervor

Holi (an Indian festival of colors), is celebrated in the spring. It's a time for people to come together, play with colors, dance, and enjoy sweets. However, it's a misconception that widows in India are often barred from participating in such festivities due to cultural taboos. In Vrindavan, a city known for its religious significance and association with Lord Krishna, you can see widows celebrating Holi with joy and fervor. The widows live together in ashrams there. They also participate in traditional rituals, such as the lighting of the Holi fire, that are performed during the festivals. These celebrations have not only brought joy to the widows but have also created awareness about the need to eradicate the stigma associated with widowhood. In conclusion, the Holi celebrations in Vrindavan have become a symbol of empowerment and liberation for the widows in India. The celebrations not only bring joy to the widows but also serve as a reminder that everyone deserves to be treated with dignity and respect, regardless of their social status. It is heartening to see that steps are being taken to ensure that widows are included in mainstream society and that they can celebrate festivals like Holi with freedom and happiness.
