Super Successful ISP Green Gateway

Our one day picnic trek was a great success, filled with enjoyment, camaraderie, and thrilling experiences. From engaging in hiking and joyful conversations to forging enduring recollections, it was undeniably a remarkable day that brought immense happiness to every team member.

A Giant Leap for ISRO: India Reached the Moon's South Pole with Chandrayaan 3

On August 23, 2023 - India accomplished a significant feat – they successfully landed Chandrayaan-3 on the Moon, particularly at the south pole. This achievement marks only the fourth instance of a precise lunar landing! It holds immense significance and serves as a remarkable triumph for the Indian Space Research Organization (ISRO). It mirrors the dedication and expertise required in our own work at ISP to support architecture and engineering. ISRO's triumph serves as a powerful reminder that with unwavering determination and skill, even the most formidable challenge, such as reaching the moon, can be conquered.
